

Quality & Safety

Strengthening Our Safety Culture

This quarter, we conducted a week-long First Aid and Fire Marshal Training facilitated by St. John Ambulance in Nairobi, Kenya. Team members from various departments gained hands-on experience in CPR, first aid, fire safety, and emergency evacuation procedures.

This initiative reflects our commitment to creating a safer workplace—empowering everyone to respond confidently and effectively in emergencies.

BARS Accreditation

We are proud to announce the successful completion of the WFP BARS Connect pilot project. In addition, we achieved our **seventh consecutive Gold Bar Status** under the **Basic Aviation Risk Standards (BARS)** accreditation by the Flight Safety Foundation. This milestone is a testament to our unwavering commitment to the highest standards of aviation safety, and it reinforces our dedication to providing safe, reliable, and efficient air services to our clients across the continent.

Environment

ISO 14001 : 2015 – Certified for a Greener Future

On January 27, 2025, we achieved ISO 14001:2015 certification from SGS, marking a major step in our sustainability journey. This global standard affirms that environmental responsibility is embedded in our operations, from reducing emissions to promoting eco-conscious practices across our teams.

“This certification marks a significant milestone for us, reinforcing our leadership in environmental stewardship within the aviation industry. Sustainability remains a core pillar of our operations,” said Managing Director, Moses Mwangi.

This achievement reflects our commitment to responsible aviation and challenges us all to make greener choices in our daily work.

“With this certification, you have officially been cleared for takeoff into a future of sustainable aviation,” noted Kioko Ndolo, SGS Representative.

Team Spotlight

Captain Dado Hussein

**Promoted
to Captain
on Dash 8-100 Fleet**

We are pleased to share the promotion of Captain Dado Hussein from First Officer to Captain on our Dash 8-100 fleet. This milestone reflects his dedication, skill, and professionalism—qualities we value deeply at 748 Air Services.

Captain Dado's growth within our ranks underscores our ongoing commitment to nurturing talent and maintaining the highest standards of operational excellence. We look forward to his continued contribution in delivering safe and reliable air services across the region.

Magdaline Mwachiti

**Appointed
Marketing
Manager**

We are delighted to announce the appointment of Magdaline Mwachiti as our new Marketing Manager at 748 Air Services.

Magdaline previously served as a Safety & Quality Officer within the organization, where she demonstrated strong leadership, attention to detail, and a deep understanding of our operations. Her appointment marks an exciting step forward as we continue to strengthen our presence within the humanitarian aviation sector and enhance client communications.

748 Cares

Discover the New Mama Ibado Charity Website

Mama Ibado Charity has launched a new website designed to bring you closer to the cause through real stories from the seniors we serve.

The new platform offers two ways to give:

- **Support** – Choose a specific senior to support by exploring their profiles and stories.
- **Donate** – Make a general one-time or monthly contribution to the wider program.

Visit the www.mamaibado.org today and see how your generosity creates real, personal impact.

Run 4 Seniors Campaign

Mama Ibado Charity invites you to take part in the **Run4Seniors** fundraiser on **July 11th, 2025**, at **Karura Forest** from **7:00 AM to 1:00 PM**. The event is dedicated to providing meals and medical care for vulnerable seniors.

This is more than a run, it is a show of compassion and unity for a cause that matters.

How to Register:

Visit www.mamaibado.org, select your race category, complete the payment, and check your email for confirmation.

Let us stand together for our elders!
